Banteay Meanchey province (Sisophon)	8 display Full number unknown but probalby a lot	N°004, N°005, N°012, N°017, N°019, N°025, N°280, No ID
Police station into the domain enclosure of Banteay Chhmar	Number unknown	No ID numbre on the artifacts
Around the domain area of Banteay Chhmar	Number unknown	×
Missing from the temple complex of Banteay Chhmar	Number unknown	×

# The artifacts from Prasat Banteay Chhmar

The understanding of Banteay Chhmar is directly link with its artifacts

But a full thoughtful inventory of its artifacts doesn't exist today

To reach this goal the full record of the Bayon style artifacts not displayed at the Banteay Meanchey province should be a priority

The creation of documented lapidarium with a warehouse for small artifacts in Banteay Chhmar is a necesity to collect and protect the artifacts from the monument and its area

The development of a list of the stolen artifacts (objects and architectural elements) would be possible by the comparative study of the old photos of the site with its current condition
